DF-777

Automatic Folder

Reliable Folding at Your Fingertips

The DF-777 Automatic Folder is the perfect complement to Duplo's existing line of tabletop folders. Utilizing the durable and patented Duplo feed system, the DF-777 offers fully automated setups, making it easier and faster to process jobs without any manual adjustments required.

The DF-777 precisely folds documents such as brochures, menus, letters, and invoices at up to 135 letter-size sheets per minute. Users can select from six of the preprogrammed folds for touch-and-go folding or customize their own for non-standard folds. Cross folding for right-angle folds is also possible. The DF-777 has five popular sheet sizes (letter, legal, ledger, 1/2 letter, and 1/2 legal) preprogrammed for quick setup and user convenience. Fold position adjustments are easily done via the control panel. Once the paper size and fold type are entered, the ejection roller automatically moves into position.

With a patented friction feed system and adjustable paper and feed separator pressure controls, a wider range of paper stock up to 145 gsm can be fed with increased accuracy and consistency. Non-stop productivity is also ensured with an ascending/descending counters and 500-sheet feed tray capacity. Ideal for any office, church or school, the DF-777 brings easy and reliable folding to your fingertips.

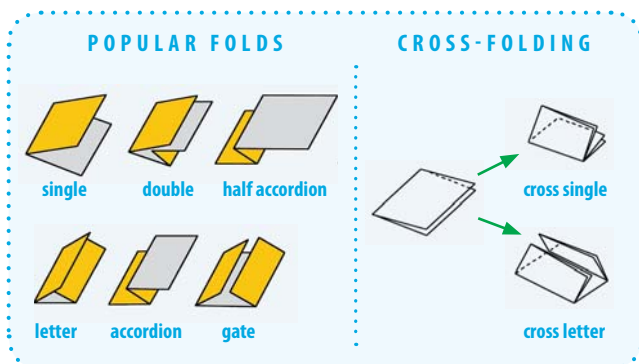

- Automatic setting of fold plate and ejection roller
- Six preprogrammed popular folds
- Cross folding feature for right-angle folds
- Folding up to 135 sheets per minute
- Jam detector automatically stops operation
- Ascending and descending counters
- Electronic fold plate adjustment for custom folds
- Test button folds two sheets for inspection

SPECIFICATIONS

PAPER SIZE (WxL)	5" x 7.2" to 11.7" x 17"
PAPER TYPE	Bond, NCR, some art/coated paper
PAPER WEIGHT	52.3 - 145 gsm / 14 - 38 lb. (129.9 gsm / 34 lb. paper cannot be cross folded)
FOLD TYPES	6 standard fold types (single, double, half accordion, letter, accordion, gate), special cross fold (two passes, paper thickness 14 lb. to 28 lb.), and custom folds
FEED TRAY CAPACITY	Up to 500 sheets (64 gsm / 17 lb.)
SPEED	Up to 135 sheets per minute (letter size)
PAPER FEED METHOD	Patented friction-feed with skew correction
COUNTER	Ascending 4-digit, descending 3-digit
FOLDING STOPPER	Automatic setting
STACKER ROLLER	Automatic setting 5 steps
DETECTION FUNCTION	Opening/closing of top cover, no paper, mis-feed, paper jam, paper feed tray position
POWER SUPPLY/CONSUMPTION	120V 60Hz 0.85A
DIMENSIONS (WxDxH)	In use: 37" x 19" x 22" In storage: 25" x 19" x 22"
WEIGHT	79 lbs.

Production rates are based upon optimal operating conditions and may vary depending on stock and environmental conditions. As part of our continuous product improvement program, specifications are subject to change without notice.
