

# DF-915

## Automatic Tabletop Folder

Let Duplo's DF-915 Automatic Tabletop Folder take care of all your folding needs. High-speed folding up to 280 sheets per minute has never been easier! With six popular pre-programmed folds and a multitude of custom folds, crisp and accurate folding for a variety of applications is accessed at the touch of a button.

The patented feed system ensures reliable feeding and accurate folds for a wide range of popular paper

sizes, weights, and stocks. No manual adjustments are needed, as the DF-915 automatically recognizes five popular paper sizes – letter, legal, ledger, 1/2-letter, and 1/2-legal.

High-speed folding can't get any easier. Simply load the feed tray up to 500 sheets, select the fold type, and hit start. The DF-915 is the fastest, most easy to use tabletop folder for all applications demanding speed and precision folding.

- High-speed folding up to 280 sheets per minute

- Six popular pre-programmed folds

- Special "cross folding" for right-angle folds

- Two programmable memory settings for custom folds
