DETAILS

The SA3000 inkjet printer and imager offers high speed inkjet printing from a convenient desktop printer. It prints on a variety of common office media including postcards and envelopes at speeds of up to 7,000 pieces/hour. The SA3000 prints high quality 600 dpi logos, graphics and message lines anywhere on your mail piece to enhance your outgoing mail. And, by applying USPS barcodes you can take advantage of automated postal discounts to reduce your postage costs.

1. Enhanced Feed Control

Provides faster and easier flow of envelopes through the printer and improves print quality. Input hopper holds up to 200 #10 envelopes.

2. Control Panel

Operator friendly control panel. The easy to read and angled control panel offers convenient prompts to guide the user. Ideal for "walk-up" use.

3. Communication / Technology

Supports high-speed USB Ethernet, providing quick delivery of information from the PC to the printer. Shuttle head technology offers the flexibility to print over a wide area of the envelope.

4. Printhead

Uses convenient, reliable and high quality 45A inkjet technology. Self cleaning printhead for operator convenience.

5. Optional conveyor and drop stacker

Comes standard with a convenient paper catch tray. Add an optional conveyor for improved drying time and media handling.

The SA3000 provides personalized and professional imaging. It's ready to print the Intelligent Mail Barcode when you are!
