## ultimail™ 65 Digital Mailing System

### ENHANCE YOUR IMAGE AND PRODUCTIVITY.

Put this easy-to-use, efficient postage system to work in your office and quickly eliminate trips to the post office and the inconvenience and time it takes to manually process mail! The German-engineered FP ultimail™ 65 offers unmatched quality, performance, and versatility with advanced features that process mail at speeds of up to 65 pieces per minute and effectively ensure the correct postage is dispensed each and every time.

No special training is required to operate. Anyone in the office can automatically process mail with crisp 300 dpi print quality that projects a professional image. A combination of a soft-touch panel and an easy-to-understand LCD display virtually eliminates any learning curve. Plus, the compact, utilitarian size and silent operation of the ultimail™ 65 enable it to fit neatly in any office environment without disturbing co-workers. Realize even more time- and money-saving benefits by adding optional scales and specialized accounting and mailing software to the ultimail™ 65 and turn your mailroom into an independent, cost-effective mailing station!
